

SOPHISTICATED TRANSLATION SOLUTIONS FROM EVS TRANSLATIONS FOR GLOBALLY-FACING BUSINESSES IN THE LIFE SCIENCES SECTOR

Life sciences translations

Global businesses operating in the life sciences sector generate a **huge demand for large-scale yet very precise translation**. Drug admission procedures, product information or legal documentation required by different overseas regulatory bodies must be submitted to the highest standard if a business is to succeed.

EVS Translations has been working successfully alongside global healthcare providers, pharmaceutical companies, and medical device manufacturers for over 25 years to provide translation management and localisation solutions. Our production centres across Europe and the USA, all with **in-house translation and technical teams**, guarantee unmatched quality and scalability. We offer solutions to meet the full spectrum of a business's localisation maturity: from expert human translation to AI-driven solutions, all backed by an intuitive translation management platform.

State-of-the-art translation management tools for optimal efficiency, and workflows certified according to ISO 17100 and 9001 standards complete our services.

The security of your data is also paramount: we partner with an ISO certified data storage facility and our IT team can provide enhanced data security measures for sensitive information.
